SUMMARY

Software Developer with 1.4+ years of experience in Angular and Node.js, building scalable SaaS applications and RESTful APIs. Strong expertise in JWT-based authentication, RBAC, and performance optimization. Experienced in AI integrations (NLP, LLMs) and automation workflows for recruitment systems. Proven ability to deliver secure, high-performance applications and optimize system efficiency in production environments.

Technical Skills

Frontend	Angular, TypeScript, JavaScript, RxJS, HTML5, CSS3, SCSS, Bootstrap
Backend	Node.js, Express.js, REST API Development, Middleware architecture, API integration
Databases	Microsoft SQL Server, MySQL,
Security	JSON Web Token (JWT), Role-Based Access Control (RBAC), API Interceptors
Tools	Git, GitHub, VS Code, Termius, SQL Server Management Studio
AI & Integration	Groq LLM, Together AI, OpenAI,

PROJECTS

Tresume : All-in-One AI powered ATS, HRMS,

- Developed a scalable full-stack application from architecture to deployment using Angular, Node.js and MSSQL
- Designed and implemented an AI-based Resume Analysis feature to evaluate resumes and provide improvement suggestions.
- Built an AI Resume Generator that creates professional resumes based on Job Descriptions (JD) and candidate information.
- Developed an AI-powered Checklist Generation module to automate document verification and onboarding processes.
- Created responsive and user-friendly interfaces for ATS and HRMS modules using Angular.
- Integrated REST APIs and backend services for seamless data management and application workflows.
- Participated in developing candidate management, job assignment, and recruitment workflow features.
- Implemented search, filtering, and reporting functionalities to improve recruiter productivity.
- Worked with Git for version control and collaborated with team members in Agile development processes.
- Performed bug fixing, testing, and performance optimization to improve application stability and user experience.

KEY HIGHLIGHTS - AI & PRODUCT AUTOMATION

- Collaborated with cross-functional teams to develop and deploy AI-enabled recruitment solutions within the Tresume platform.
- Developed an AI-powered Resume Analysis and Scoring module to evaluate candidate resumes and provide actionable improvement recommendations.
- Designed and implemented an AI Checklist Generator to automate onboarding and document verification processes.
- Created resume relevancy and matching features to improve candidate-job alignment and recruiter decision-making.
- Reduced recruiter manual effort by ~70% and improved workflow speed by ~60%

WORK EXPERIENCE

SOFTWARE DEVELOPER ASTA CRS PVT LTD - TRESUME DIVISION | May 2025 - present | CHENNAI

- Contributed to end-to-end product development - frontend architecture, UI modules, API integration, security, and deployment.
- Engineered scalable Angular architectures with lazy-loaded modules, interceptors, guards, and reusable UI components.
- Designed secure authentication system with JWT + refresh tokens + role-based access.
- Led integration of REST APIs with optimized request handling and error interceptors.
- Designed Live Chat functionality to enable real-time communication between recruiters and candidates within the platform.
- Developed User Login Monitoring features to track user login activity, session details, login history, and audit records for improved security and administration.
- Participated in database design, bug fixing, testing, performance optimization, and deployment activities.
- Collaborated with cross-functional teams in Agile development processes to deliver product enhancements and new features.

KEY ACHIEVEMENTS

- Delivered 7+ major product modules independently with ownership mindset.
- Structured a scalable component library that accelerated development speed across team.

EDUCATION

B.Com - Computer Application- 7.65 CGPA

Periyar University , Salem 2021 - 2024

IBMCertification., Full-StackWebDevelopmentCertification — Soft Logic Academy Institution , Chennai
