PROFESSIONAL SUMMARY

Software Developer with 1.4+ years of experience building scalable SaaS and enterprise web applications using Angular, Node.js, SQL Server, and AI technologies. Experienced in developing AI-powered Applicant Tracking Systems (ATS) and HRMS platforms with expertise in REST APIs, JWT Authentication, RBAC, Redis, and LLM integrations (OpenAI, Groq, Together AI). Proven ability to deliver end-to-end product features, optimize recruitment workflows through automation, and build secure, high-performance applications in Agile environments.

TECHNICAL SKILLS

Frontend: Angular | React | TypeScript | JavaScript | RxJS | HTML5 | CSS3 · SCSS · Bootstrap

Backend: Node.js | Express.js | RESTful APIs | Middleware Architecture | API Integration | Microservices | socket io

Databases: Microsoft SQL Server | MySQL | MongoDB

Security: JWT Authentication | Refresh Token | Role-Based Access Control (RBAC) | API Interceptors | API Security

AI & LLMs: Groq LLM | OpenAI API | Together AI | NLP Integrations | AI Automation Workflows

DevOps : Git | GitHub | VS Code | Termius | Manual Deployment | Server Maintenance | Production Support

Methodology: Agile | Scrum | Unit Testing

WORK EXPERIENCE

SOFTWARE DEVELOPER

ASTA CRS Pvt. Ltd, Chennai, India

May 2025 – Present

- Contributed to the end-to-end development of Tresume, an AI-powered Applicant Tracking System (ATS) and HRMS platform using Angular , Node.js, SQL Server, Redis, REST APIs, JWT Authentication, and Role-Based Access Control (RBAC).
- Developed AI-powered recruitment solutions including Resume Analysis, Resume Scoring, Resume Generator, Candidate Matching, Onboarding Checklist Automation, and LLM integrations using OpenAI and Groq to streamline hiring workflows.
- Designed and implemented scalable enterprise features including Live Chat, Login Activity Monitoring, Session Audit, Candidate Management, Advanced Search, Reporting, and workflow automation to enhance recruiter productivity.
- Delivered 7+ production-ready modules independently, collaborating in Agile development, code reviews, debugging, performance optimization, API integration, testing, and production deployment.

PROJECTS

Tresume — AI-Powered ATS & HRMS Platform | Angular · Node.js · MSSQL · Groq LLM · OpenAI

Developed Tresume, an AI-powered ATS & HRMS platform using Angular, Node.js, SQL Server, and Redis. Built AI-driven Resume Analysis, Resume Generator, and Candidate Matching features using OpenAI and Groq LLM. Implemented REST APIs, JWT authentication, RBAC, reusable Angular components, and third-party integrations to deliver secure, scalable, and high-performance enterprise solutions.

Ecommerce Website: Online Shopping Platform | HTML · CSS · JavaScript · MySQL · PHP

Developed a user-friendly ecommerce platform with seamless navigation, efficient product search, and personalized AI-based recommendations. Implemented a secure checkout system with multiple payment options to ensure safe transactions. Built backend functionality for product management, user interactions, and order processing.

Personal Portfolio Website | React.js · Bootstrap · EmailJS · Vercel · GitHub

Built a professional portfolio website to showcase software development projects, technical skills, certifications, and work experience. Implemented secure Contact and Newsletter forms using EmailJS without a backend. Developed responsive and interactive UI with reusable React components and Bootstrap. Configured automated deployment using Vercel and GitHub for seamless production updates.

EDUCATION

B .Com — Computer Application AVS College Of Arts and Science , Salem | 2021 – 2024

CERTIFICATIONS

IBM Certification — MERN Stack Development · Soft Logic Academy Institution, Chenna.
